## **Mechanical Engineering Quality inspector**

**Location:** Drayton, Abingdon, Oxfordshire OX14 4EZ

**Hours:** 37hr week, Mon-Thurs 8.00 – 4.30 Fri 8.00-1.00 Overtime often available

**Wage:** Dependant on skill and experience – to £38k Salary

**Duration:** Permanent

### **Job description:**

We are looking for an experienced, dynamic and qualified 'In-process' Inspector to take control of all aspects of quality control from material supply through thorough checking off in-process inspection, to final delivery along with a disciplined and 'hands on' approach to dimensional inspection. The role will involve customer *and* supplier liaison, management of NCR's & development of corrective/preventative actions in line with ISO 9001 standards and recommended actions for development and improvement of our systems and procedures.

### **The key responsibilities include:**

- In-Process inspection (During Manufacture)
- Use of Programmable and Manual CMM inspection
- Upkeep, Maintenance and calibration of Metrology gauges and equipment to ISO 9001
- Overseeing goods in/out inspection
- Raising and investigating NCRs with implementation of corrective/preventive measures
- Presentation of KPI statistics for monthly review
- Maintenance of ISO 9001 accreditation as it relates to the Production and inspection

### **Key skills and experience:**

- Ideally you will be an experienced CNC Machinist/programmer with an 'Inspection' background.
- You will be able to demonstrate and pass on your skills and experience of quality inspection.
- You will be fully familiar with, and have experience of working within an ISO 9001 environment.
- You will be able to work well in a team environment and have the necessary 'people skills' to develop and improve the quality culture of the business, having confidence and a discerning judgment on when to raise issues, improvements.
- You will have good communication skills both internally and to outside 'agencies' by telephone/email etc
- Reporting to the Managing Director you will be supporting the production team striving for 100% quality.
